

## Summary

- 3 years experience in Frontend Development and 1+ year of experience in UI/UX Design.
- Developed a web app for doctors and patients in 12 months including all the required functionalities.
- Redesigned mobile screens for the existing app within 2 sprints with new layout by following UX design standards and design system.

## Work Experience

### UI/UX Designer ([Ramco](#))

November 2023 - April 2023

- Collaborated with developers to fix User Interface bugs and structuring the code to maintain code Consistency across the project.
- Designed Dashboard UI for the existing project in the Aviation domain using Figma.
- Worked on creating User Stories and Mindmaps in Miro platform.
- Utilized user-centered approach and followed the design thinking process to provide better UX.
- Took part in User Interviews to gain insights into the User Experience(UX).
- Incorporated affinity mapping and Eisenhower matrix to create low-fidelity wireframes and converted it to high-fidelity Prototypes using Figma.

### Frontend Developer ([Maasika](#)) ([Md+](#))

December 2020 - July 2023

- Delivered two Progressive Web Apps, one is Md+ for doctors and patients and the other is DocPe for doctors to track their patients using React.
- Developed JavaScript and JQuery solutions, including managing popups, callback requests, handling and validating forms to increase user engagement and performance.
- Designed and developed responsive web pages for various health improvement programs like [Post Covid Health Restoration](#), [Reverse PCOD/PCOS](#), [Kaama](#).
- Utilized wireframes and mindmaps to design optimal user interfaces and prototypes using Figma.
- Created Custom Hooks and Mixins to develop application UIs and reusable components by using React and SASS.
- Constructed a responsive website for Md+ as per the design in the Wix platform.
