

Work Experience

Frontend Developer ([Maasika](#))

(December 2020 - July 2023)

- Delivered a Progressive Web App(DocPe) for doctors to track their patient details using React.
- Developed JavaScript and JQuery solutions, including managing popups, implementing callback requests, handling and validating forms to increase user engagement and performance.
- Designed and developed responsive web pages for various health improvement programs like [Post Covid Health Restoration](#), [Reverse PCOD/PCOS](#), [Kaama](#).
- Revamped the existing website template with required features using Bootstrap and JQuery.

Frontend Developer ([Md+](#))

(February 2022 - July 2023)

- Implemented Progressive Web App(Md+) for doctors and patients using React.
- Established application UIs and reusable components using React and SASS.
- Teamed with the Backend developer on API integration with Frontend.
- Deployed Custom Hooks using React.
- Designed Md+ website using Figma.
- Constructed a responsive website for Md+ as per the design in the Wix platform.
- Utilized wireframes and mindmaps to design optimal user interfaces and prototypes using Figma.
- Proposed 4+ posters for doctors based on their specialization using Canva.
- Tracked and managed development changes using Jira Board.

Projects

Countries on Earth ([Demo](#))

- A web page to display country details from an API using React with Search, Filter, Sort, and Dark mode functionalities.
- Styled using SASS.
